Steve Morgan Smorgan@Univestcapitalinc.com

Statistics indicate 8 out of 10 businesses in this country lease some or all of the equipment utilized in their business.
Why do they do so? Because lease financing offers many advantages over traditional financing options:

- Significant tax advantages are possible when lease financing is utilized
- Lease financing is easier and less restrictive than traditional bank loans
- Lease financing allows a business to retain liquidity by saving other credit facilities for short term borrowing needs
